

## Suma Des

### Hygienic destainer for mechanical ware washing

# T30

#### Description

**Suma Des T30** is a highly concentrated ware washing destainer, specially formulated to provide excellent stain removal in combination with Diversey detergents.

#### Key properties

**Suma Des T30** is a mild alkaline liquid destainer containing stabilised Sodium Hypochlorite. It is intended for use primarily in larger multi-tank ware washing machines in combination with a ware washing detergent, **Suma Forte Plus L54**. This two component detergent system combines excellent removal of starch, fats and all types of stains.

**Suma Des T30** also contains ingredients which makes this product safe on stainless steel even in concentrated form.

**Suma Des T30** is supplied in SafePack packaging, providing a closed system with unique colour coded key connectors to prevent personal exposure and reduce confusion.

#### Benefits

- Very effective removal of tannin stains
- Greater economy in use as being highly concentrated
- Very effective cleaning system in combination with **Suma Forte plus L54**
- Safe on stainless steel due to patented mix of ingredients

#### Use instructions

**Suma Des T30** will normally be used in conjunction with a ware washing detergent without bleach at a concentration of 0.5-1.0 ml/litre.

#### Technical data

Appearance	clear liquid
pH (1% solution)	11.6
Relative density (20°C)	1.15

These figures are typical values and should not be interpreted as specifications.

#### Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet.

Store in original container. Avoid extremes of temperature and exposure to sunlight.

#### Product compatibility

Under recommended conditions of use, **Suma Des T30** is suitable for use on most materials commonly encountered in the kitchen. Do not use on alkali sensitive items such as copper, brass, aluminium or rubber.
